

Look what I'm doing with my summer vacation!

I've been accepted to participate in this exciting training program that will enrich our school and our community. This flyer tells you a little bit about this unique opportunity.

FOUNDATIONS OF MONTESSORI INCLUSION IN ELEMENTARY AUGUST 2-14, 2020

SOUTHERN CALIFORNIA, USA

World-renowned pediatrician, Prof. Dr. Theodore Hellbrügge, partnered with Mario Montessori in the 1970's to reconnect his mother's work with the science of Social Pediatric Developmental Rehabilitation to create an inclusive Montessori education.

This 2-week Intensive Course will help participants learn to create comprehensive inclusive Montessori programs to support the success of all children. By incorporating this approach, schools can improve their success with children, support their teachers more effectively and serve their communities more deeply.

This historic event is presented by the Theodor Hellbrügge Foundation and sponsored by Montessori Medical Partnership for Inclusion.

**Coming back to the USA following
overwhelming success in 2019,
50 years of Montessori
Inclusion Knowledge & Experience**

Learn how to implement this cutting-edge inclusive practice at your school through a holistic, inter-disciplinary and integrated system of supports that are all connected through Montessori developmental practice:

- Building and implementing Montessori-based inclusive practice through prepared adults, prepared environments & prepared materials of development;
- The roles of the developmental medical team, diagnosis & observation, Montessori Inclusion Pedagogy, and Montessori Therapy;
- Proven approaches to the inclusion of children with social, emotional, cognitive, motor or sensory differences;
- Parent engagement and support.

In order to defray the costs of tuition, travel, and lodging, I have created a GoFundMe page. Here is where you can go to donate:
